ELSEVIER

International Journal of
Food Microbiology 25 (1995) 321–323

International Journal of Food Microbiology

Contents of Volume 25

Number 1, March 1995

Editorial Note v

Regular Papers

P. Van Netten, D.A.A. Mossel and J. Huis In 't Veld (Netherlands)
Lactic acid decontamination of fresh pork carcasses: a pilot plant study 1

P. Hernandez and L.R. Beuchat (Venezuela, USA)
Evaluation of diluents and media for enumerating *Zygosaccharomyces rouxii* in blueberry syrup 11

L.M. Rørvik, D.A. Caugant and M. Yndestad (Norway)
Contamination pattern of *Listeria monocytogenes* and other *Listeria* spp. in a salmon slaughterhouse and smoked salmon processing plant 19

J.P. Sutherland, A.J. Bayliss and D.S. Braxton (UK)
Predictive modelling of growth of *Escherichia coli* O157:H7: the effects of temperature, pH and sodium chloride 29

R.E. O'Connor-Shaw, J.A. Guthrie, K.J. Dunlop and R. Roberts (Australia)
Coliforms in processed mango: Significance and control 51

P. Kalathenos, J. Baranyi, J.P. Sutherland and T.A. Roberts (UK)
A response surface study on the role of some environmental factors affecting the growth of *Saccharomyces cerevisiae* 63

G. Salvat, M.T. Toquin, Y. Michel and P. Colin (France)
Control of *Listeria monocytogenes* in the delicatessen industries: the lessons of a listeriosis outbreak in France 75

P. Boutibonnes, V. Bisson, B. Thammavongs, A. Hartke, J.M. Panoff, A. Benachour and Y. Auffray (France)
Induction of thermotolerance by chemical agents in *Lactococcus lactis* subsp. *lactis* IL1403 83

Short Communications

P. Braun and K. Fehlhaber (Germany)
Migration of *Salmonella enteritidis* from the albumen into the egg yolk 95

G. Bresler, S.B. Brizzio and G. Vaamonde (Argentina)
Mycotoxin-producing potential of fungi isolated from amaranth seeds in Argentina 101

Guide for Authors 109

Number 2, April 1995

Regular Papers

H. Chen, S. Hayashi and H. Yamazaki (Canada, Japan)
Effects of high levels of Selenite and *Escherichia coli* on enrichment of *Salmonella* and detection of *Salmonella* by polymyxin-cloth enzyme immunoassay 119

G. Rusul and N.H. Yaacob (Malaysia)
Prevalence of *Bacillus cereus* in selected foods and detection of enterotoxin using TECRA-VIA and BCET-RPLA 131

G.G. Greer and B.D. Dilts (Canada)
Lactic acid inhibition of the growth of spoilage bacteria and cold tolerant pathogens on pork 141

H. Nakajima, T. Toba and S. Toyoda (Japan)
Enhancement of antigen-specific antibody production by extracellular slime products from slime-forming *Lactococcus lactis* subspecies *cremoris* SBT 0495 in mice 153

M.-L. Johansson, A. Sanni, C. Lönner and G. Molin (Sweden, Nigeria)
Phenotypically based taxonomy using API 50CH of lactobacilli from Nigerian ogi, and the occurrence of starch fermenting strains 159

C.J. Capell, R.M. Kirby and M.O. Moss (UK, Portugal)
A method and medium for the electrical detection of *Listeria* spp. from food 169

F. Villani, O. Pepe, G. Mauriello, G. Salzano, G. Moschetti and S. Coppola (Italy)
Antilisterial activity of thermophilin 347, a bacteriocin produced by *Streptococcus thermophilus* 179

Short Communications

M.H. Silla Santos and J. Torres Zarzo (Spain)
Glucono-δ-lactone and citric acid as acidulants for lowering the heat resistance of *Clostridium sporogenes* PA 3679 in HTST working conditions 191

M. Saxelin, T. Pessi and S. Salminen (Finland)
Fecal recovery following oral administration of *Lactobacillus* Strain GG (ATCC 53103) in gelatine capsules to healthy volunteers 199

Calendar of Events 205

Number 3, May 1995

Review Papers

H.-J. Sinell (Germany)
Control of food-borne infections and intoxications 209

M. Wierup, B. Engström, A. Engvall and H. Wahlström (Sweden)
Control of *Salmonella enteritidis* in Sweden 219

Regular Papers

J.F. Van Impe, B.M. Nicolaï, M. Schellekens, T. Martens and J. De Baerdemaeker (Belgium)
Predictive microbiology in a dynamic environment: a system theory approach 227

D.A. Baker (Germany)
Application of modelling in HACCP plan development 251

G. Klein, B. Hack, S. Hanstein, K. Zimmermann and G. Reuter (Germany)
Intra-species characterization of clinical isolates and biotechnologically used strains of *Lactobacillus rhamnosus* by analysis of the total soluble cytoplasmatic proteins with silver staining 263

L.G. Huck, C.R. Dorn and E.J. Angrick (USA)
DNA probe for detection of serogroup O157 enterohemorrhagic *Escherichia coli* 277

M. Kasrazadeh and C. Genigeorgis (USA)
Potential growth and control of *Escherichia coli* O157:H7 in soft hispanic type cheese 289

M.L. Stecchini, V. Aquili and I. Sarais (Italy)
Behavior of *Listeria monocytogenes* in Mozzarella cheese in presence of *Lactococcus lactis* 301

Short Communication

H. Nissen and R. Dainty (Norway)
Comparison of the use of rRNA probes and conventional methods in identifying strains of *Lactobacillus sake* and *L. curvatus* isolated from meat 311

Calendar of Events 317

Contents of Volume 25 321
